TAKE THE HASSLE OUT OF MOVING HOUSE

with **MINI STORAGE SELF STORAGE CENTRES**

Moving house can be one of the most stressful things you will ever do so the key to a successful and hassle free move is ORGANISATION & PLANNING. Mini Storage Self Storage centres offer you their top moving tips:

1. **PACKAGING SUPPLIES:** Determine the packing accessories that you need for your move. Then visit our website on www.ministorage.ie or call into one of our Mini Storage offices where you can buy a complete range of packing and storage materials from storage boxes to bubble wrap, Mini Storage tape to marker pens or our value Mega or Mini Storage packs.
2. **REMOVALS COMPANY:** Ensure that you use a removal company that comes with reliable recommendations and book them well in advance (at least four weeks prior to your move). Mini Storage Self Storage centres are happy to recommend a removal company so why not call our team on 1800 646 478 or email us on info@ministorage.ie for further details. For any items you wish to place in storage with Mini Storage Self Storage centres we are delighted to offer our clients free use of our Mini Storage trailer with every Move In.
3. **CONTACT LIST:** Make a list of everyone that you need to contact to let them know you are moving house including banks and building societies, family and friends, doctors, dentists, bin companies, schools etc giving them details of your new address. Ensure that electricity, gas and phone companies are contacted with details of your new move and arrange for meter readings and disconnection of services in your old home and connection of these services at your new home to be organised.
4. **DECLUTTER:** Moving house gives you the perfect opportunity to declutter and will help in keeping your new home spacious and clutter free. Throw out items you don't require any longer, give second hand clothes to charities and put items of sentimental value or larger items of furniture that will take up too much room in your new home into storage with Mini Storage Self Storage Centres giving you extra space in your new home.
5. **PACKING & MOVING:** Make a list of all the items you pack for the move and ensure you label each box clearly using a Mini Storage marker pen making it easier to identify items you require later. Ensure boxes are packed sufficiently so they can be stacked on top of each other when moving, however, avoid putting all heavy items in one or two boxes, distribute the weight evenly so boxes can be easily carried. Don't place boxes on top of soft furnishings when moving as this could cause items to get damaged. Use Mini Storage bubble wrap on polished furniture, mirrors and on delicate items such as plates, glasses etc to avoid damage. Clean white goods e.g. fridge, freezer prior to moving and ensure to drain fuel from any petrol driven items such as garden equipment you wish to move.
6. **GOOD LUCK:** Once you have all the ground work and preparation done the move to your new home will be a happy and stress free one. Mini Storage Self Storage Centres wish you every luck in your new clutter free home!
